

## Answer on Question #60365, Chemistry / General Chemistry

1. Zinc iodide when heated with carbon forms zinc metal and carbon monoxide what is the balanced equation and say what are oxidized and reduced.

### Solution:

1. This is some mistake in the task. Not "Iodide" but "Oxide"
2. The reaction is shown below:

3. In reaction below the C is reducer and It It has been oxidized.  
The ZnO is oxidizer and It has been reduced
