Answer on question #53319, Math / Other

Question   Given 2p - 3q = 10, write an expression for the number (a) 100 (b) 30 and (c) -10

Solution   (a)
$$100 = 20p - 30q$$
(b)
$$30 = 6p - 9q$$
(c)
$$-10 = 3q - 2p$$
