Answer on Question #74473 – Math – Algebra

Question

Express (12/25+16/50)×(1-7/8) as a single simplified fraction.

Solution

(12/25 + 16/50)*(1 − 7/8)

= (24/50 + 16/50) * [(8-7)/8]

= (40/50) * (1/8)

= 5/50

= 1/10

Answer: 1/10.
